

Life

In the Upside-Down World

EPISODE #17

By Warren Litzman

We receive many wonderful words of the good things the Lord is doing worldwide. There is no doubt the Father is working out His plan perfectly. However, everywhere the Lord is working, Satan is working also. In the past few days, we see Satan's handiwork in countries where dictators have ruled and reigned for many years. When the world turned upside-down in these countries years ago, robbers and thieves took over. They saw an opening, and with force took over the government and have been ruling the people with an iron hand ever since. But the fact still remains and is shown with the raw evidence of dictators murdering and robbing their people: You cannot fight God or God's people indefinitely. God's great interest in world problems is not in who rules a country, but that the people have freedom to worship God and believe on His dear Son, Jesus. The dictators can only rule and murder for a short period. Then God moves and answers the prayers of the millions of believers who have been crying out to God for help. But even though God is moving by displacing dictators, He needs good believers to grasp hold of the next step—that of placing the right people in government.

Here is where Satan must be whipped again. You see, the battle for freedom never stops. Satan wants to keep people in bondage, but people must be free to accept Jesus so that people from that particular country will be ready when the Rapture takes place. This is the most important thing now in the world. In this upside-down world, the love of His heart is still the coming of Christ for God's rebirthed sons. For God so loved the world that He gave His only son to save them (John 3:16). We who are safe and secure in Christ must pray for those who have not yet accepted Christ, for time is short and Satan cannot win.
